Pune, Maharashtra, India

Phone: 9834243018 | Email: chorageshivraj@gmail.com

PROFESSIONAL PROFILE

B.Tech student in Artificial Intelligence and Machine Learning at JSPM University, Pune, expected to graduate in 2027, following a Diploma in Computer Engineering at KBP Polytechnic, Satara. Technical work centers on Python-based machine learning, natural language processing, deep learning and computer vision. Completed an internship in Python programming and artificial intelligence and two virtual internships in data analytics and generative AI, and has built two applied projects: an NLP-based phishing and scam detection system and a real-time facial emotion recognition system. Also interested in software development and problem solving.

PROFESSIONAL FOCUS

Seeking entry-level and internship roles such as AI/ML Intern, Machine Learning Intern, AI Engineer Intern, Junior AI/ML Engineer, Python Developer, Software Developer (entry level), and NLP or Computer Vision Intern.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java

Artificial Intelligence / Machine Learning: Machine Learning, Deep Learning, Convolutional Neural Networks (CNN), Neural Networks

Natural Language Processing: NLP, TF-IDF, Logistic Regression, DistilBERT

Computer Vision: OpenCV, Facial Emotion Recognition

Libraries and Frameworks: TensorFlow, Scikit-learn, Gradio

Cloud / DevOps: AWS, Google Cloud Platform (GCP), Kubernetes

Database: DBMS

Core and Professional: Object-Oriented Programming (OOP), Software Development, Debugging, Problem Solving, Project Research

PROJECT EXPERIENCE

PhishGuard AI — Phishing & Scam Detection System

Technologies: Python, NLP, DistilBERT, Scikit-learn, Gradio

Objective: Detect phishing and scam content in emails and messages using natural language processing.

- **Approach:** Built an NLP-based phishing detection system in Python.
- **Model techniques:** Applied TF-IDF text features with Logistic Regression (Scikit-learn), and fine-tuned a DistilBERT transformer model for classification.
- **Interface:** Developed a Gradio interface that supports real-time risk classification of emails and messages.
- **Evaluation:** Evaluated the models using standard machine-learning metrics.

EmotionVision AI — Real-Time Facial Emotion Recognition

Technologies: Python, OpenCV, TensorFlow, CNN

Objective: Recognize facial emotions from live webcam input in real time.

- **Classification:** Built a CNN-based facial emotion classification system in TensorFlow that supports 7 emotion categories.

- **Real-time pipeline:** Integrated OpenCV webcam-based face detection to perform real-time emotion prediction.
- **Output:** Provides a confidence score with each prediction.
- **Evaluation:** Evaluated model performance using accuracy, classification metrics and a confusion matrix.

INTERNSHIP EXPERIENCE

Python Programming and Artificial Intelligence Intern May 2023 – July 2023

Domain Computer Education, Kolhapur, Maharashtra (three-month internship)

- Completed an internship focused on Python programming and artificial intelligence.
- Received training in Python programming.
- Learned the fundamentals of artificial intelligence and the basics of neural networks.

Google Cloud Data Analytics Virtual Internship 2025

Generative AI Virtual Internship — AWS Academy 2026

EDUCATION

JSPM University, Pune 2024 – 2027 (Ongoing)

B.Tech., Artificial Intelligence and Machine Learning | Expected graduation: 2027

KBP Polytechnic, Satara 2021 – 2024

Diploma in Computer Engineering — Maharashtra State Board of Technical Education (MSBTE), 2024

Abhinav Madhyamik Vidyalaya, Shahupuri, Satara 2018 – 2021

Class 10 — Maharashtra State Board of Secondary and Higher Secondary Education, Pune, 2021

Abhinav Vidyamandir, Shahupuri, Satara 2011 – 2017

Primary school

ACADEMIC PERFORMANCE

B.Tech. CGPA: 8.00/10.00 (up to third year)

Diploma in Computer Engineering (Final Year, Semester 6): 81.88%

Class 10 (2021): 78.20%

CERTIFICATIONS

Academic

- Class 10, Maharashtra State Board of Secondary and Higher Secondary Education, Pune — 78.20%, 2021
- Diploma in Computer Engineering, MSBTE — Semester 6: 81.88%, 2024

AI, Machine Learning and Cloud

- Machine Learning using Python — Simplilearn, 2025
- Introduction to Gen AI — Microsoft, 2025
- AI Fundamentals — IBM SkillsBuild, 2025
- Google Cloud Data Analytics Certificate — Google Cloud, 2025
- AWS Academy Graduate – Generative AI Foundations (Training Badge) — AWS Academy, 2026
- AWS Academy Graduate – Machine Learning for Natural Language Processing (Training Badge) — AWS Academy, 2026
- AWS Academy Graduate – Machine Learning Foundations (Training Badge) — AWS Academy, 2026
- Hands-on Training on AWS and Cloud Computing (Certificate of Completion) — JSPM University, 2025

Programming and Computer Science

- MS-CIT (Maharashtra State Certificate in Information Technology), 2021
- KLiC Certificate Course in C Programming, 2021
- C++ Programming (Abdul Bari) — Udemy, 2022
- Introduction to Sorting Algorithms — Simplilearn, 2025
- Operating Systems Basics — Cisco, 2025
- Computer Networks and Internet Protocol — NPTEL, 2025
- Cyber Security and Privacy — NPTEL, 2025
- Human Computer Interaction — NPTEL, 2026

Supporting documents: Certification Documents

ART ACHIEVEMENTS

Government of Maharashtra Drawing Grade Examinations

- Elementary Grade Drawing Examination (2018) — Grade B
- Intermediate Grade Drawing Examination (2019) — Grade C

SPORTS ACHIEVEMENTS — BOXING

- Silver Medal (Second Place), 6th Sub-Junior Boys Maharashtra State Boxing Championship, Maharashtra Boxing Association (2019)
- Silver Medal (Second Place), District-Level School Games — Boxing (2018)

VOLUNTEERING

- Kshitij Foundation for Rural Development
- Satara Half Hill Marathon — Volunteer (2022)
- Satara Half Hill Marathon — Volunteer (2023)

LANGUAGES

English, Hindi, Marathi

HOBBIES AND INTERESTS

Bike riding and touring, photography, music, travelling, exploring AI technology, building software projects
